Disability – Repeated Sprints

(A) Individual Data and Smooths

(B) Global grand mean and 95% credible interval (CI)
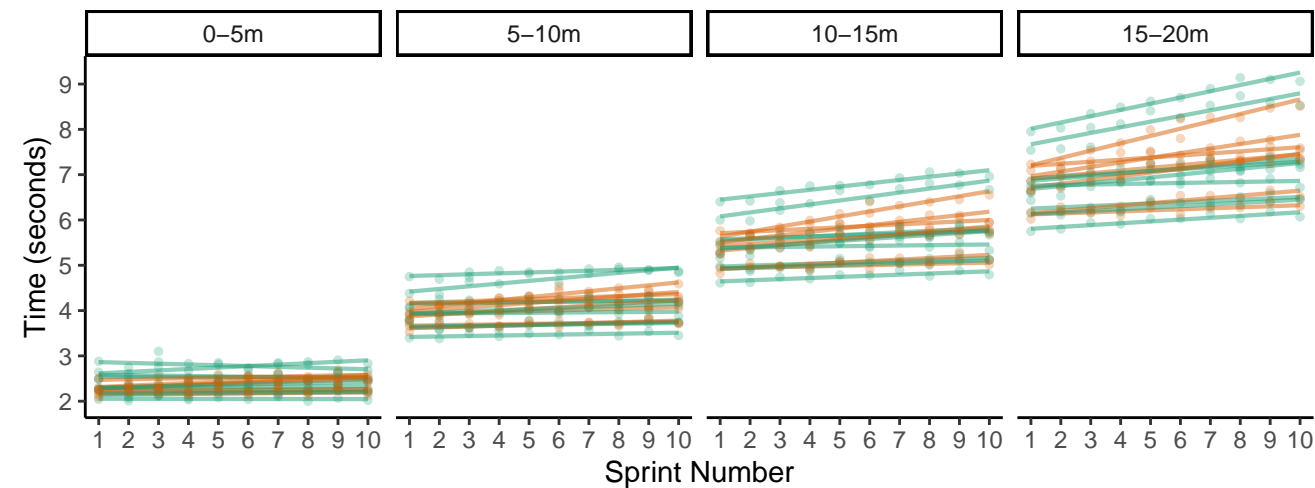

Disability — Other — SCI
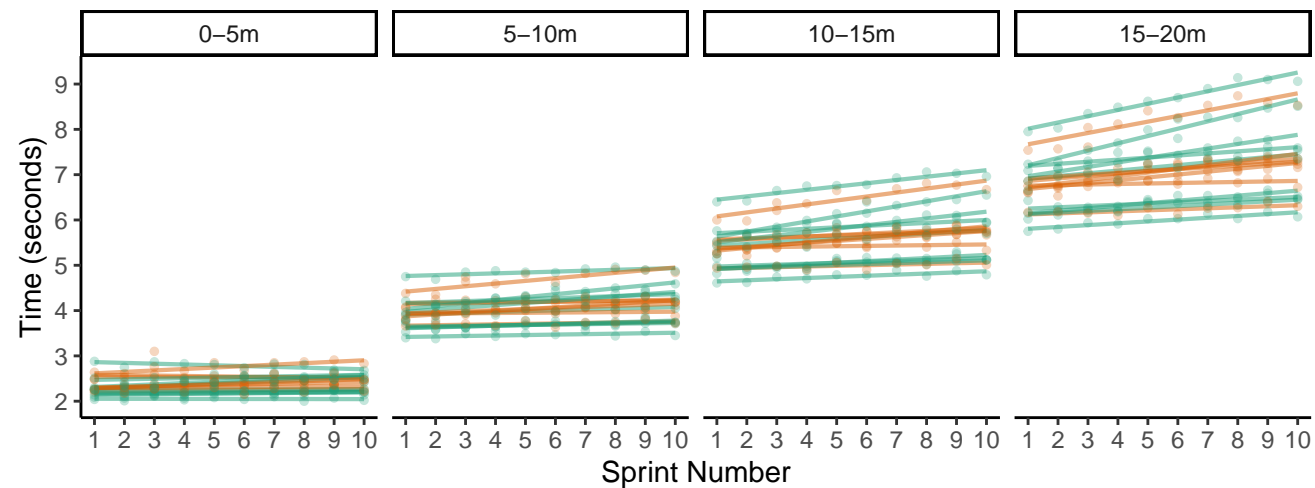

Model: Time ~ Disability * Sprint Number * Distance + (Sprint Number + Distance | ID)
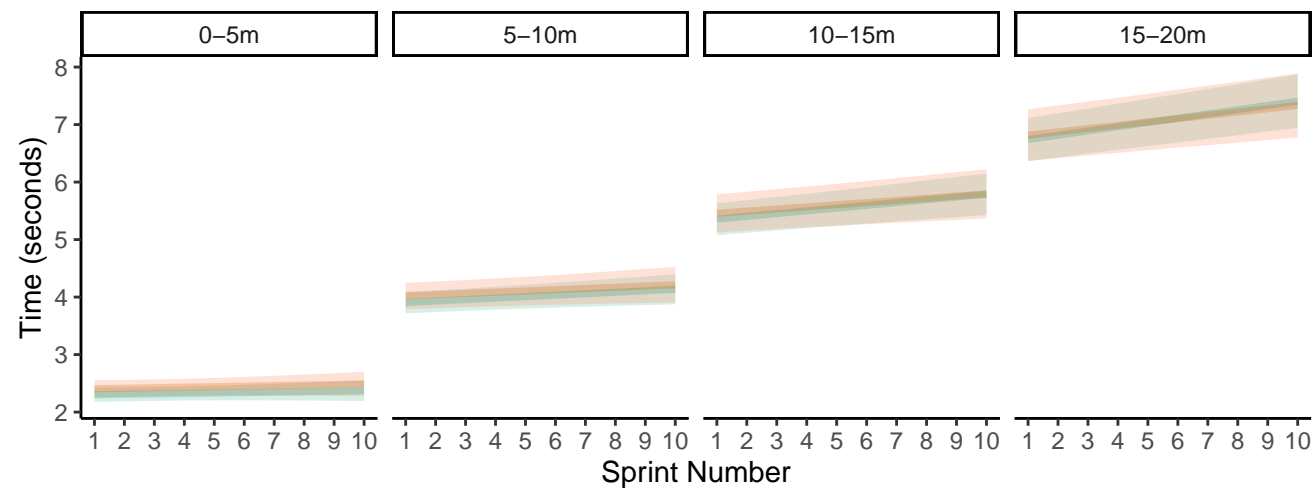

Classification – Repeated Sprints

(C) Individual Data and Smooths

(D) Global grand mean and 95% credible interval (CI)

Classification — 4 — 5

Model: Time ~ Classification * Sprint Number * Distance + (Sprint Number + Distance | ID)
